## Description

### Specifications

High resistance product designed for professional use in hotel facilities, gardens and communities.  
Smooth finish without skirt.  
Stainless steel structure with a fixed mast 225 cm high and flat finish<sup>1</sup>.  
Designed to be used with foundation<sup>2</sup>.

### Fabric

Breathable fabric constructed with double weft and double warp, 1.25 mm thick and 870 g/m<sup>2</sup> density.  
Made of a continuous polyester thread core (30%) coated with PVC (70%).  
Resistant to UV rays, with a light resistance index of 8.  
Antimicrobial protection that protects against bad odors and moisture.  
Fire resistance due to flammability retardant according to EN-1021-2:2015 regulations.

### Mast

AISI 304 stainless steel tube with a bright polished finish, 30 mm in diameter and 1.5 mm thick.

### Grip<sup>3</sup> and crown<sup>4</sup>

Manufactured with polyamide reinforced with mineral filler that gives it greater resistance.  
Fixed trigger closure.

### Rods<sup>5</sup>

Pultrusion rods of resin and polyester fiber 9 mm thick.

### Arrowhead<sup>6</sup>

Made with polypropylene resin reinforced with mineral filler.

## Ocean

Beach umbrella

### Scape valvule<sup>7</sup>

The scape valve allows the release of air accumulation and protects the beach umbrella from gusts of wind.

#### Maintenance plan

---

##### Weekly

Visual check of the general condition, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

##### Monthly

Check fabric tension.

Check the structural strength and stability.

Check the good condition of the rods and mechanisms, as well as their joints and points of articulation.

##### Annual

Check the condition of the fabric and the mast.

Replace any worn or damaged parts.

##### Wintering and storage

Clean with soapy water and a soft cloth.

Remove damp stains, sand and seawater.

Store horizontally in a dry place.

##### Observations

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Do not use aggressive chemicals to clean the product.
- Always use products with a neutral pH.
- Use a soft cloth to clean the product.
